

Strategies/Analytics

Sometimes before the nature or need for a facility or real estate project is understood at all, our Page strategies and analytics team creatively applies a broad array of tools, techniques, and processes to help our clients think first- and think better.

Our team is a group of dedicated specialists who tailor proven techniques including facilitation, research, rigorous analysis and interactive data visualization to address specific client and project needs. The common thread is the application of objective information and proprietary digital tools to help clients make informed decisions while building consensus among stakeholders.

Specific services include program generation and verification, facility assessment, space utilization and needs analysis, community engagement, system planning/modeling, space reallocation/migration strategy, visioning, environmental scanning, and comparative analysis.

SECTOR LEADERSHIP

PRE-DESIGN AND STRATEGY SERVICES

Jamie Flatt
Strategic Consultant
jflatt@pagethink.com

- Programming / Pre-design Foundation
- System Level Planning
- Master Planning
- Facility Programming
- Space Planning
- Service Extensions
- Visioning
- Facilitation and Decision Support
- Community / User Engagement
- Change Management
- Broader Strategic Applications
- Customized Tool Development
- Workplace Strategy
- Post Occupancy Evaluation
- System Modeling

Lisa Keith
Space Analytics
lkeith@pagethink.com

Sheri Offenhauser
Strategic Consultant
soffenhauser@pagethink.com

Ashley Chiarelli
Strategic Consultant
achiarelli@pagethink.com

Jackie Longoria
Engagement Strategy
and Execution
jlongoria@pagethink.com

SPACE ANALYTICS TOOLS

- Space Needs Assessment
- Space Utilization
- Demand
- Prioritizing
- Research
- Digital Tools
- Benchmarking
- Environmental Scanning
- Space Reallocation / Migration
- Inventory Creation / Auditing
- Space Adequacy Assessment
- Space Metric Development
- Program Planning

With roots extending back to a two-person partnership formed in 1898, Page is one of the most prolific and enduring architecture and engineering design practices. Page architects, engineers, interior designers, planners, strategic analysts and technical specialists provide services throughout the United States and abroad. Our diverse, international portfolio includes projects in the healthcare, academic, government and science and technology sectors, as well as civic, corporate and urban housing projects.

The Page portfolio consists largely of complex projects that benefit from our integrated disciplines and that make a significant impact on the communities they serve. We are guided by the three core values of creativity, collaboration, and commitment, and through the force of these ideals, we live up to our promise of design that makes lives better.
